

GALAXY-DISCS

GALAXY 120/30

GALAXY RED/GREEN/BLUE/YELLOW

DESCRIPTION

The ATM Galaxy system consists of 8 different grinding discs. All steps are "in tune" with each other. The Galaxy discs are applicable from pre-grinding to polishing, suitable for various materials and different preparation techniques (manual, semi-automatic or fully automatic).

FEATURES

- » High level of plainness
- » Solid long life tool
- » High performance material removal
- » Non-corrosive magnetic carrier disc, easily interchangeable
- » Ideal drain of grinding particles due to unique spiral design
- » Color code on carrier disc
- » Suitable for Vacu-Jet, magnetic system or adhesive foil
- » Speed: up to 500 rpm

APPLICATION		Ø 250 MM	Ø 300 MM
GALAXY 120		92008539	92008541
		92008543	92008545
GALAXY 30		92008538	92008540
		92008542	92008544
